

RedToken Vision

To be the World Leading “Two Holes in the Wall” integration and cyber security system for Quantum Super Computer Technology within next 5 years

IBM Quantum
System Two

RedToken Europe AB

Prevent AI data from running out of control - Prevent fraud of Digital Keys

Table of Contents

Points to discuss:

Vision	01	Function & Technology Bridge	07
Founder	02	Organisation	08
Team	03	Potential Future Stakeholders	09
SaaS Solution	04	Investment Proposal	10
Using Selling Points	05	Price and Revenue Model	11
Use Case & Digital Asset	06	The End	12

Specialist

Mikael Bramstedt

Founder & Chairman
RedToken Europe AB

EXPERT

- Expert in multi tenant industries, specialized in Bank & Finance.
- 35 years of experience in Payment and Travel industry
- Certified IBM Hardware and Software Mainframe Enterprise system Technology Hybrid Cloud AI and Blockchain.

EXPERIENCE

- IBM - Nordic Processor Architect
- Nordea - Responsible Architect Swish C2B
- Swedbank - Multi FIAT currency payment
- Netgiro - sold to digital River, Inc. (NASDAQ)
- SAS - Amadeus, Galileo and TUI (Fritidsresor, Industrial
Companie: Asea Brown Boveri, Sandvik, Ericsson, HCL (Volvo
AB AI & Blockchain lab, solution, Volvo Cars), H&M, AGA m.m

RedToken Enterprise SaaS Function and Technology Echo System

RT Function

Token filtering and Alerting takes control over AI data

Risk for misuse:

- Deepfakes
- Data violations
- Algorithmic bias caused by bad data
- Socioeconomic inequality
- Market volatility
- Weapons automatization Uncontrollable self-aware
- Swift IBAN Fraud Scandal Solution;
- RT Filtering Filtering and Alerting with Blockchain
- Client Programable immutable
- Smart Contract to regulated business rules between two or more trusted parts

RT Technology

RT Hybrid AI & Blockchain:

- +100.000 transactions per second (tps)

Comparison:

- *Swift 1700/tps*
- *Ripple 1600/tps*
- *Ethereum 25/tps*
- *Bitcoin 3/tps*

- **Smart Contrat:**

- **Quantum IBM/Google Bridge Technology:**

RT Function (*Unique*)

Restore Key – Securing Digital Assets

Risk for misuse:

- If keys are passed away
- Assets are gone forever but debts still remains
- FTX Scandal
- Genesis Bankrupts Sandal
- Approximately 6 million Bitcoin lost forever due to lost private keys

Solution: RT Restore Key

- RT Asset Secure key restores lost keys running in highest security classified IT Infrastructure

Note

- *The keys are only visibel by compliance for the end user restoration.*

RedToken Enterprise IBM and Open Source SaaS Solution

Mitigating AI Data Failures with Advanced Blockchain Security Smart Contract Oversight and Post Production
Prepared for Quantum Technology

RT Market:

Access BUSD dollar with Global Partners

- *Main Complementary*
- *Integration platform*
- *IBM Watson AI X*

RT pre-coded and pre-production:

- IBM and Google
- Cloud/Mainframe and Quantum
- Super Computer Technology

USE CASE:

DIGITAL ASSETS SAVED 200M USD

*Mikael Bramstedt has personally been involved
in this Use Case - IBM UK/GLOBAL VAT*

With traditional contract:

With smart contract :

NYS DTF Fraud Detection and Prevention

US State Tax Administrator

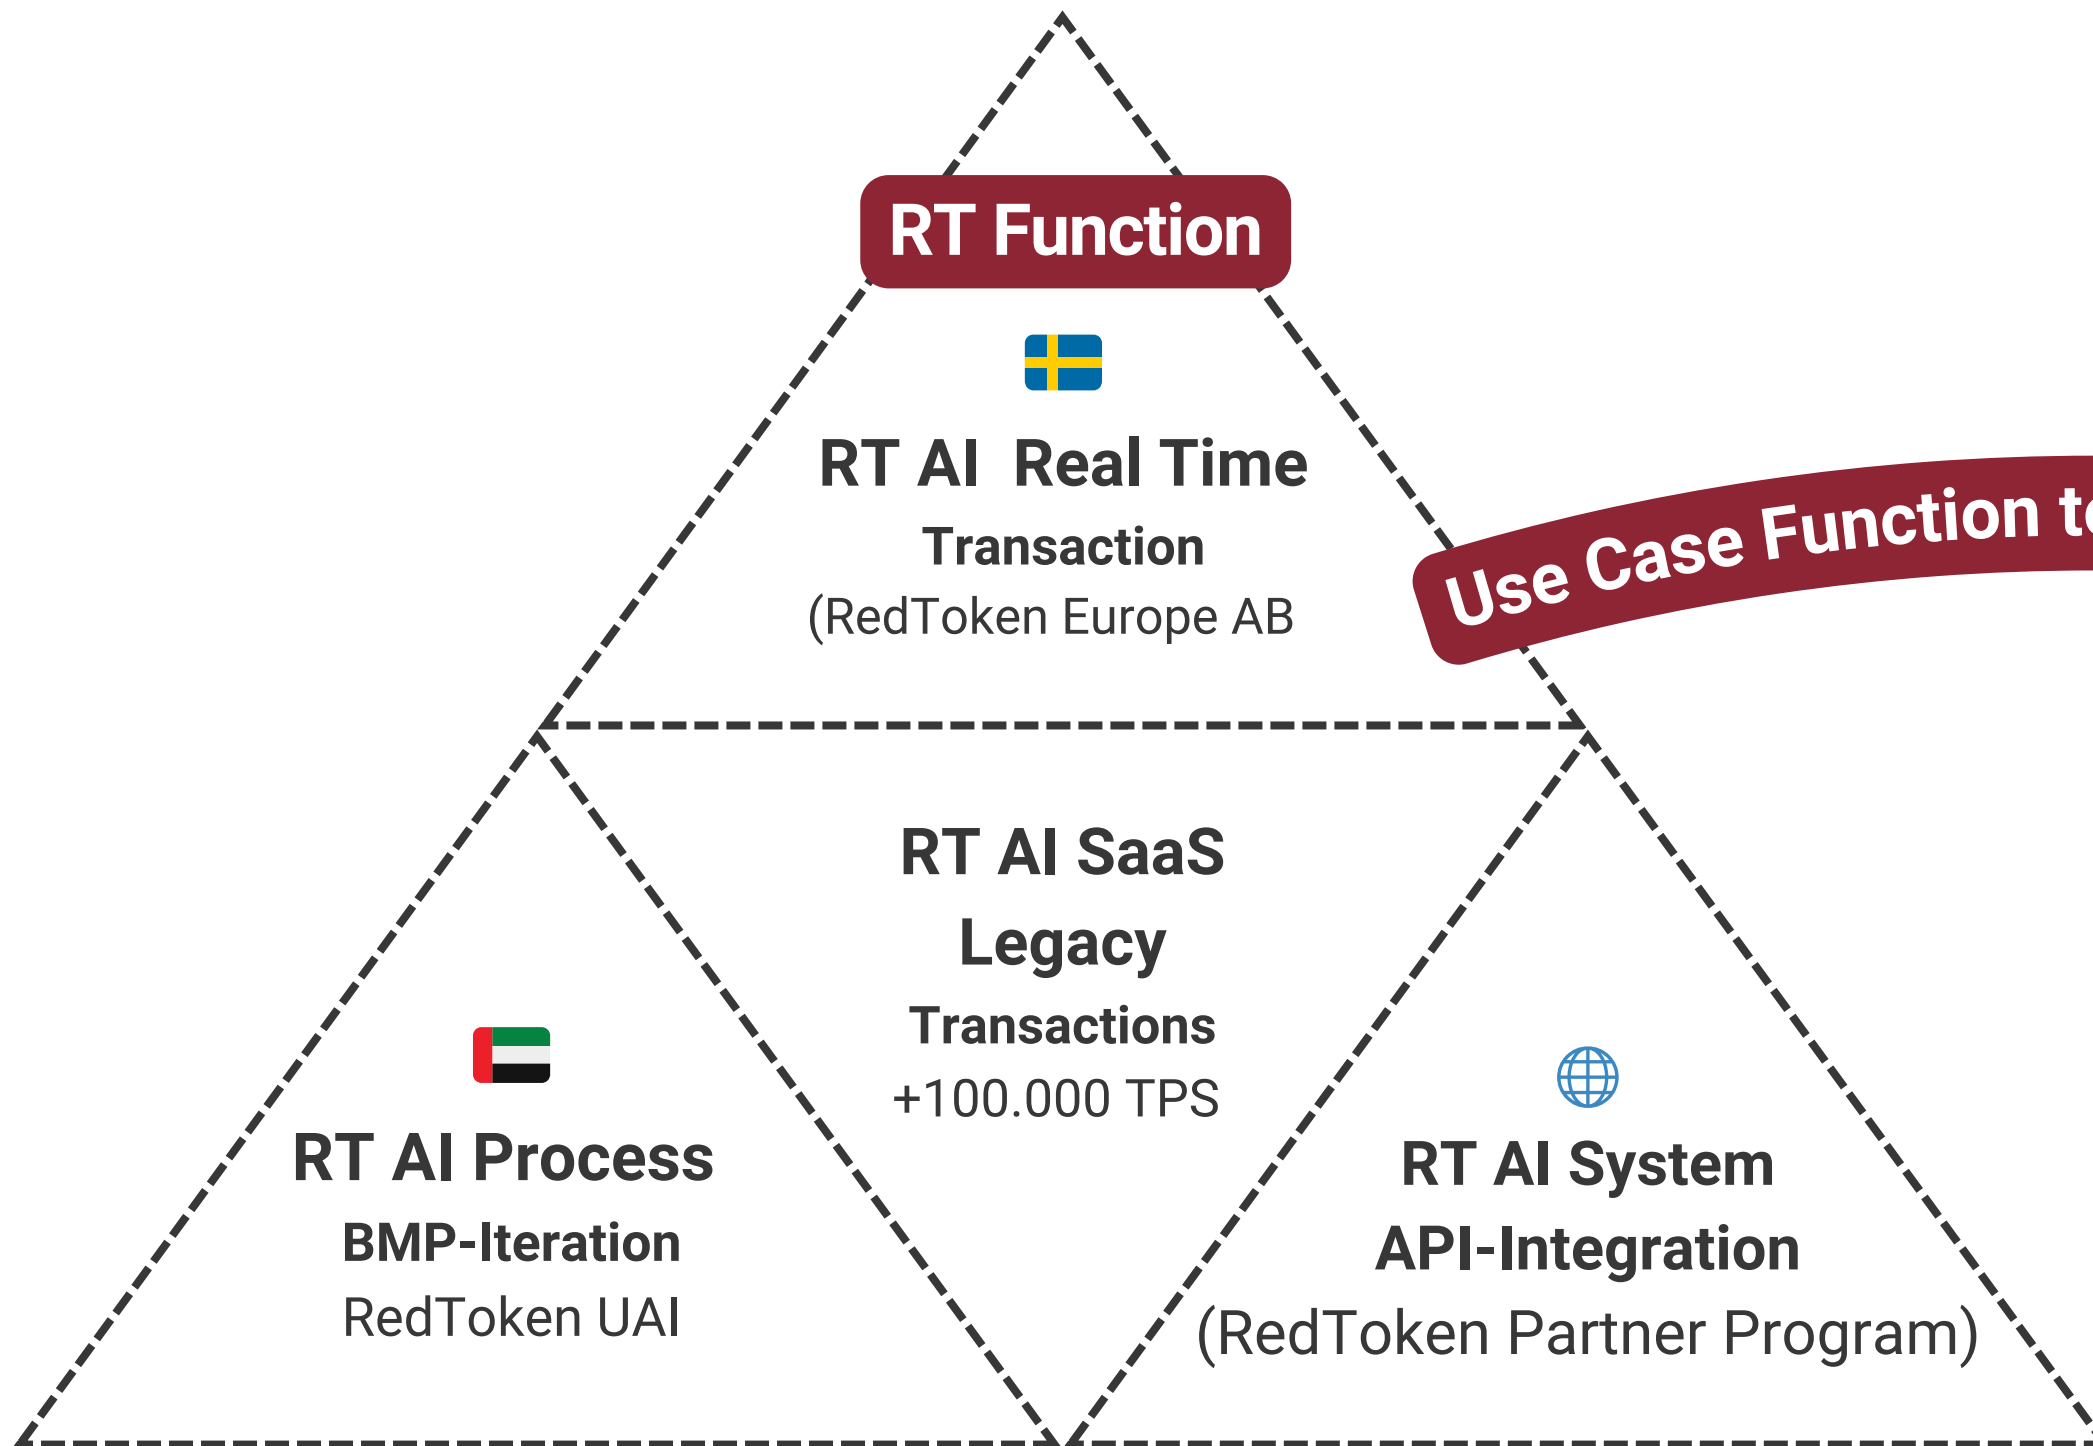

- Ensure fairness through enforcement given reliance on voluntary compliance with laws and regulations
- US\$90 billion collected annually across more than 40 tax programs
- 90% of more than 10 million personal income tax returns filed electronically each year; paper returns converted to digital files

Results

- More than US\$200 million saved annually by challenging questionable personal income tax refund claims
- “In stream” interrogation of tax returns reduces total processing time and facilitates workflow and enhances audit efficiency by prioritizing requests for additional documentation
- Ability to adjust algorithms real time to respond to changing fraud schemes

Function & Technology Bridge

- RT Public and Governance Enterprise AI SaaS Solution with Blockchain integration
- RT Quantum Technology pre-coded and pre-production

What RedToken Solving with Quantum Super Computer Technology Unique Selling Points (USP)

Real Time Transaction Functions:

- | | | | |
|-----------|---|-----------|--|
| 01 | Token - Create unique token (Hashtag), a Legacy Bankable Compliance ID. | 04 | Filtering - Sort out out false from true - unregulated from regulated AI (Data) with alarm, function. |
| 02 | Tracking - Trace/Logg Financial-, Real Estate-, Item-, Logistic Digital Assets - regulated Fiat as unregulated crypto. | 05 | Real Time Settlement - Data Checking/Alerts via Smart Contracts for compliance and data validation. |
| 03 | Smart Contract - Client programable immutable contracts, viewing/sharing (Real Time) information in a common ledger. | 06 | Merkle Tree - AI (Data) and Blockchain preparation indexing for big data analyse crunching. |

Batch and Support Function - The most valuable function in the world in digital transformation all processes.

★ **Restore Key** - A RT Asset Secure key restores lost keys in any digital transaction systems.

Organisation

- Seed Financial obstacles *Seeking Growth Capital” launch capital for entering into Quantum Computer Technology

RedToken Growth Senior Management

*Pre Requisites Competence
On-Prem 10 years experience and
understanding*

On Board Today:

- *CEO, Tech*
- *Info, Product*
- *Commercial , Infrastructure*
- *Notary, Customer Sales*
- *Client Responsible, Legal*
- *Human Resource, IT*
- *Business Developers*
- *IBM Mainframe Developer*
- *Cloud Developers*

RedToken RedToken Next Generation 2024

- *New CEO*
- *New Organisation*

RedToken Main Partner

- *Signed Global Contracted*
- *IT Partners,*
- *Statement & disclaimer*
- *Company NDA and strictly
confidentiality signed*

Potential Future Stakeholders

- RedToken Pre Coded and Post Production ready running business application in Google and IBM Quantum Technology

RedToken Co Provide Highest Performance

RedToken Pre Production Code

30 times faster

*With next generation
IBM and Google Quantum Internal
Processor Chip Architecture*

RedToken Provide Most Advanced Security

RedToken Pre Production Code

30 times more efficient

*With next generation
IBM and Google Quantum Internal Crypto
Chip Architecture*

RedToken Provide Most Green Technology

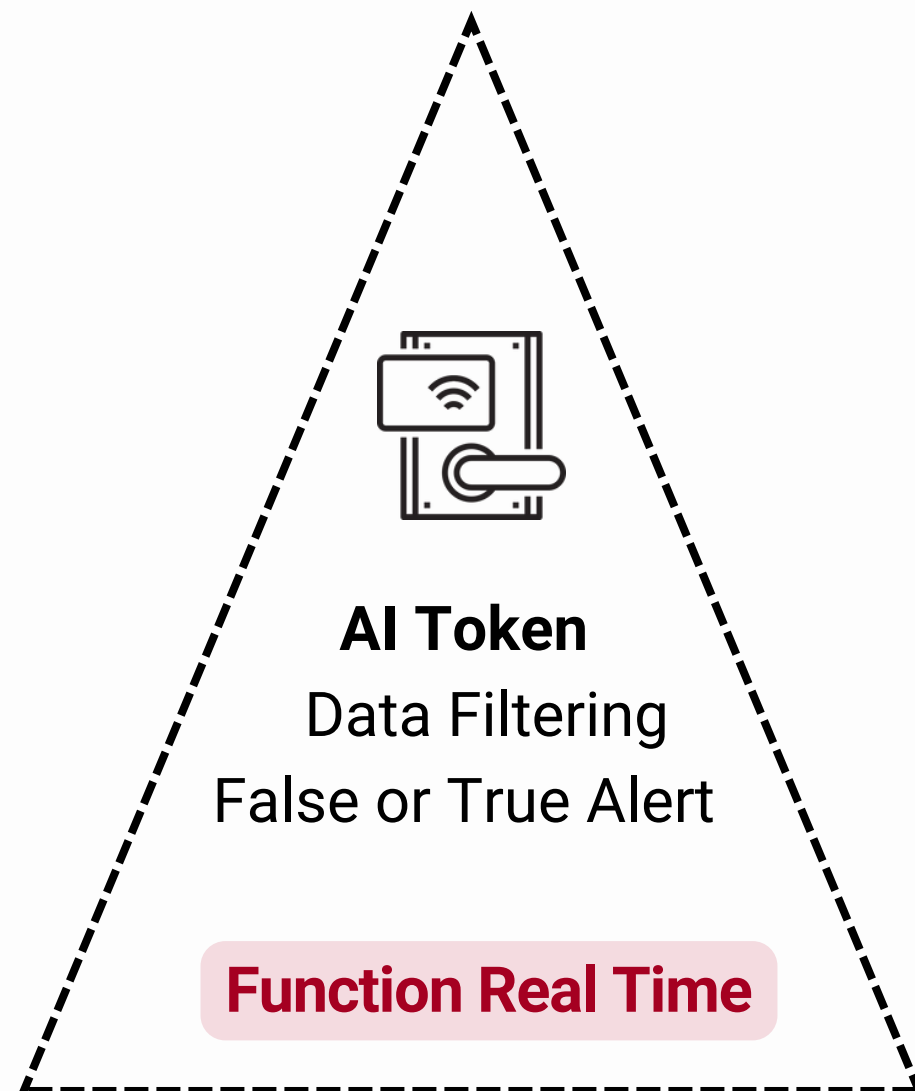

RedToken Pre Production Code

*10000 – 100000 times
less energy consumption*

*With next Generation IBM and Google
Quantum Internal Memory Sharing
Architecture*

Price and Revenue Model

(Budget and Financial Forecast in detail upon request)

1 . Primary Public and Enterprise precise in transaction Insurance
Public users offers for 10 - 15 USD/Month to get an insurance for controlling data.
Facebook and Instagram introduce new insurance method upon more strict regulations by global Act Laws for Data Providers for clients to pay for controlling their public and private data

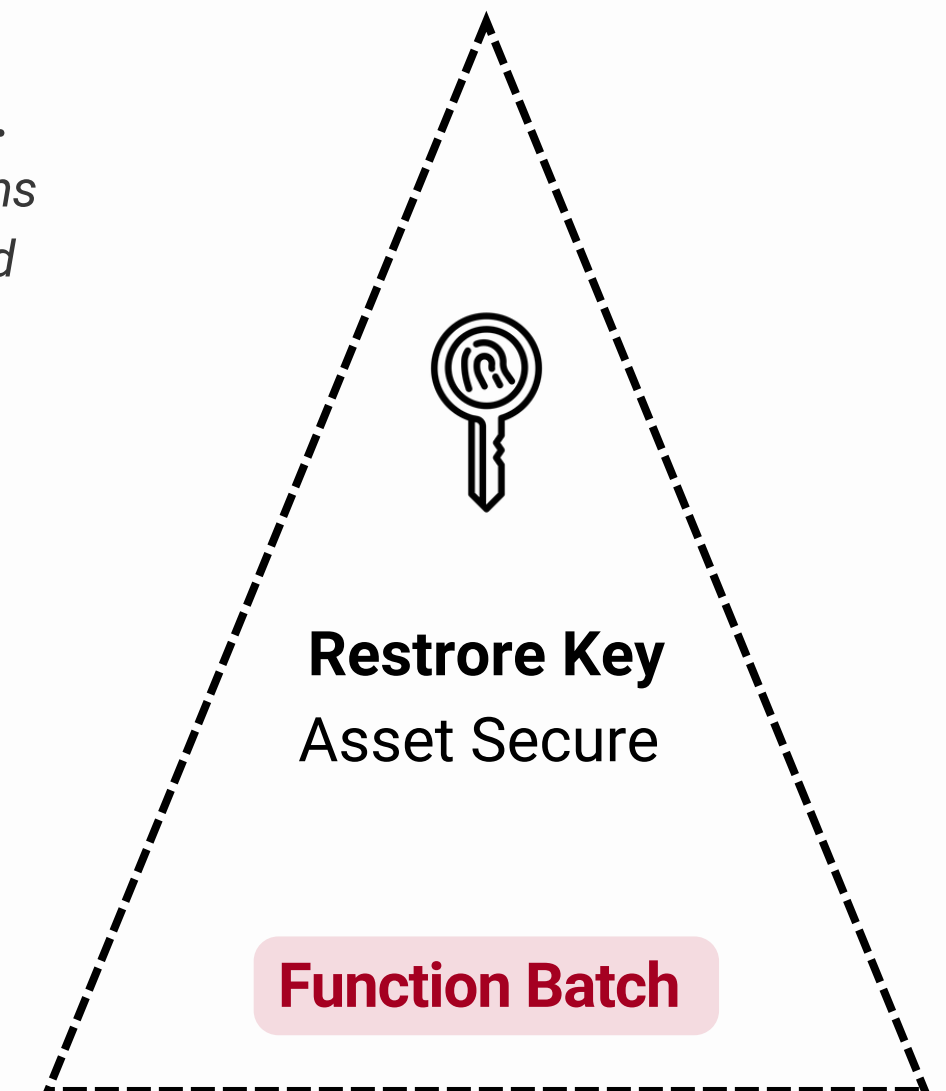

2. System Implementation and AI & Blockchain management consulting

3. Test and Pre-Production System Revenue

4. Production System one time licenses free from 4M EURO and above

5. Support 20% yearly

6. Incentive based split Commission upon client Earning/Transaction

RedToken Europe AB

Understand the magnitude of RedToken

Prerequisites > Understanding:

AI Blockchain Use Case Functions Transaction vs. Process and System Legacy Hybrid Data cloud - On Prem

Business Risk

- Lack of Competence
- Lack of Confidence
- Lack of Trust
- Lack of Understanding consequence
- Lack of Understanding of SLA Implementation
- Legal Wise- Business Wise - IT Wise

Investors Requirements

- Need Competence
- Need of Confidence
- Need of Understanding
- Need of Interests
- Need of Passion
- Need Legal - Business -IT organisation

RedToken Setup

- Have Competence
- Have Confidence
- Have Understanding
- Have Interests
- Have Passion
- Have Legal - Business IT Organisation

RedToken Wish List

1 - 2 Investors with access to expansion capital business growth - AI - Blockchain Technology - Passionate to learn more about Quantum Technology, see synergies and customer business opportunities, both internal and external

Large social photos and empathy and respect for our extensive global IT partners supporting RedToken to be a success story.

THANK YOU
